
When a dolphin speaks to thirteen-year-old Maya while she bodysurfs at Laguna Beach, she doesn't expect to be trampled shortly afterward by the horses and chariot of Poseidon, the ancient Greek god of the sea.

In DAY MONSTERS, Maya is caught between Greek gods and vengeful Titans bringing tsunamis, earthquakes, fire and mayhem. Prometheus and his kin are determined to destroy California rather than allow the Olympians a new home. By helping the gods, Maya hopes to save her family and join the ranks of heroines such as Atalanta and Persephone.

Day Monsters

The dolphin should have been warning enough. Pacific Bottlenose dolphins, *tursiops truncatus gilli* often swim around past the surf line. However--this one spoke to me.

I'd just jackknifed underwater. The sounds of kids screaming, waves crashing, seabirds calling--all cut off into silence. I scissor-kicked, pulling wide with my arms, my view fogged, Day Monsters hair streaming in the current.

Day Monsters

Then, within reach, a humongous something loomed. Smooth skin stippled by light and dark shadows slid by.

A dolphin!

I didn't freak out. Some kids, they're into sports, others into video games. Me? I'm into creatures: on land or sea, feathered, scaled, or finned, vertebrate or invertebrate. Mom used to say I should be a veterinarian. My brother said if anyone could figure out a Day Monsters way to become furred or gilled, I'd do Day Monsters so. He knew me pretty well.
