Considerazioni dell'autore

La seguente raccolta di poesie ha come tema centrale un personale punto di vista sulla società di oggi. Prendendo spunto dalle varie creazioni artistiche di ogni epoca – compresa quella contemporanea – si cerca di dare valore e senso Il sonno di Howl (Italian Edition) a ciò che è andato perso, all'aridità culturale della società odierna. Muovendosi dunque nell'universo Avantpop (come è stata definita la contaminazione dei generi post-moderni), le citazioni fondamentali per esplicitare i concetti all'interno dei testi viaggiano dagli Il sonno di Howl (Italian Edition) antichi testi taoisti, fino alle grandi Il sonno di Howl (Italian Edition) opere letterarie (come Joyce, T.S. Eliot o Baudelaire), estendendosi poi all'arte fumettistica italiana e all'animazione giapponese contemporanea. La motivazione di questa scelta stilistica trova luogo nel voler ricreare un ponte tra passato e presente, nel voler ricordare come ciò che è stato detto possa essere preso e renderlo in termini diversi o contesti differenti. Oggi come oggi, dove la realtà sembra esser stata privata, scarnificata dal senso di serietà e dalla ricerca Il sonno di Howl (Italian Edition) per far posto al solo sentimentalismo dell'anima (che rischia Il sonno di Howl (Italian Edition) di rendere vano il lavoro di molti), serve un passo ulteriore che porti ad una ripresa di determinati canoni poetico-letterari, non per copiare ciò che già fu, quanto per adattarlo, re-interpretarlo, scovare nuovi significati e corrispondenze.
