MARKETING 101

My name is Mike Pettit and I sell books. That's my business. I write them, I publish them, and Indie Author Boot Camp - Marketing 101: How to Market Yourself and Your Book For Increased Sales I market them. I'm out there every day with just a shoeshine and a smile peddling my wares. I don't have any big shot New York yada yada people behind me, and I don't have some prissy agent telling me my stuff is not marketable. I know I'm good at my craft and I sure as hell know how to market product. Every month I get a nice royalty check like clockwork. I don't need to share Indie Author Boot Camp - Marketing 101: How to Market Yourself and Your Book For Increased Sales it with an agent or a publisher (maybe a couple of ex-wives, but that's personal).

I am my own business, and I love it. I have the financial freedom to do what I want, go where I want, when I want. I live in a nice house, drive a good car, and travel as I please. But most of all I write. I love Indie Author Boot Camp - Marketing 101: How to Market Yourself and Your Book For Increased Sales to write. If you're reading this book, then you are probably just like me. I write every chance I get, creating events, places, and people out of my imagination. What an amazing group of people we are. Just think, we are the people that future generations will study, quote, and attempt to decipher just as we do Shakespeare, Voltaire, Fitzgerald, and Hemingway today. Well, maybe not all of us, but we each have a chance at it as long as we write the best stories we possibly can.

In the meantime, we all **DO** have the ability to make Indie Author Boot Camp - Marketing 101: How to Market Yourself and Your Book For Increased Sales a good living from our hard work. In this book I will show you how to do the second most important thing an Indie Author must do to be successful. When you finish this tutorial you will understand and know how to...

PRICE YOUR BOOK

PROMOTE YOU (the Brand) AND YOUR BOOK (the Product)

SELL YOUR BOOK

I have gone through the same steps all indie Authors go through to get their work in front of readers. None of them worked. Why? Because I was depending on people I didn't know to do the heavy lifting. I just assumed that they Indie Author Boot Camp - Marketing 101: How to Market Yourself and Your Book For Increased Sales would snap up my novel and run with it. I thought it would be just a matter of weeks before I was on the Times Indie Author Boot Camp - Marketing 101: How to Market Yourself and Your Book For Increased Sales Best Seller list, and have my people talking with Oprah's people. I'm talking about **Traditional Agents and Publishers** It only took a hundred rejection notices for it to sink in that I wasn't the next superstar author for whom they had been waiting. In fact, I was nothing but a nuisance to them. They already Indie Author Boot Camp - Marketing 101: How to Market Yourself and Your Book For Increased Sales had their superstars. I call these **Traditional Author Superstars** **Old Breed**, not to be disrespectful, but to acknowledge them as the mega stars they have become with the **Big Six Publishers** behind them. Indie Author Boot Camp - Marketing 101: How to Market Yourself and Your Book For Increased Sales The Big Six with huge marketing and advertising programs that reach out to millions of readers and where a million books sold is not uncommon.

Indie Authors are the **New Breed**. That's us, the little people, the ones with no advertising dollars and no friends in high places...the ninety-five percent of us who don't have a clue how to market our books or ourselves. So we disappear into the malmsey butt like Hamlet of yore. A one-book wonder, a superstar to family and friends that probably "Shared" a copy, losers to be shunned. We failed before we even got started. Why? Because we are writers, not marketers. We are thinkers and creators, not MBA doyens that whip out business plans for weekend fun with friends.

DECISION TIME

At this point we have to decide if we want to be one-book wonders, or do we want to be "Somebody." Do we want to be that person at the party that people nod towards and whisper..."*Poor Mike, he wanted to be a writer, but hefailed.*"

If you want to succeed, if you want to be financially independent, if you will accept the fact that you need help and are willing to apply these few easy steps, then you have a good chance of being successful in your writing career.

I can't guarantee that you will be successful, but I can guarantee that if you don't understand these basic steps, you *will* fail.

So before I swear you in and send you off to **Indie-Author Boot Camp**, want to share a hypothetical story of one person's journey to success. So, place tongue-in-cheek, and read on.
