Stephen King His book '*ON WRITING*' has been a huge help for me to begin understanding the craft, as I plug along.

Oliver

Oliver was abandoned by his father as a baby, then by his mother as a young man.

Being a blank slate and having a photographic memory, as well as a talent for makeup, special effects and disguises, he is recruited by an anonymous person to become the most efficient and Oliver successful hit man ever, a Oliver path that would lead Oliver to certain eventual death.

However love enters his life. Love that could possibly change the outcome, but would it be too late?
