## Introduction

Dear Earthlings,

Hymphry Memebomber here, I was passing on my way to Reality Manual: Hymphry R. Memebomber's warning to the Earthlings the HEC, the Harraakerngv Eating Contest, Reality Manual: Hymphry R. Memebomber's warning to the Earthlings which is being held at the Lhandgloow restaurant in the Junnew star system, if you are interested. It's not far, only a couple of Hyperbubble jumps away, there's a Hyperbubble not far from your own star system which is why I was passing. I thought I would pop by for a few orbits, until my own Hyperbubble jump slot is available, to try to warn you, as you don't seem to have noticed, like most worlds, that yours has been taken over by space pirates.

*THEY*, altered your ancestors, Jesus Christ's team, befell your planet roughly 2,000 orbits ago.

*THEY*, certain your ancestors see them as gods, deceived just like Europeans with South Americans.

*THEY*, equivocated your ancestors reality, fabricating the birth of the world.

*THEY*, Reality Manual: Hymphry R. Memebomber's warning to the Earthlings gashed your ancestors limited minds, hacked heinously by the mind-control of religion.

*THEY*, inflicted your ancestors with the imperious, infallible irrational ideology that god exists.

*THEY*, joking your ancestors, Jesus said: spread the word, killing, laming and maiming in his name.

*THEY*, obliged your ancestors to plot, peddle and play their playground pyramid ponzi plan.

*THEY*, regulated your ancestors minds, Reality Manual: Hymphry R. Memebomber's warning to the Earthlings shaped by the signals of society, thoughts tautened.

*THEY*, used your ancestors, vexed, whipped and x-rayed, your ancestors minds were zapped and trapped into a mind-cage, don't let the same Reality Manual: Hymphry R. Memebomber's warning to the Earthlings happen to you with money.

I do not offer these words of advice for any reason other than as a warning, I've seen, *THEM*, do this on other worlds throughout the Galaxy. You can even see evidence for this

in your society via the group of people who talk and operate society without thinking. Those people who get angry because everyone else gets angry. Those people who drive everywhere, work, shops, school, gym and then can't understand why they are fat. Those people who eat 'fat-free' full of sugar snacks, don't exercise and wonder why they are fat: If you don't burn the sugar immediately it gets stored as fat! Wake up drones! Those people who behave like computer programs, who always buy the XFactor Xmas single. Those people have let their minds become controlled. Those people let the media, society, prejudices, other mind-controlled people control their thoughts.

Anyway, I only thought I would offer a warning as you are nearly at the end. This is a plan I have seen implemented Reality Manual: Hymphry R. Memebomber's warning to the Earthlings on many worlds, writers on your world have indeed already observed this being implemented. The planet take-over plan that, *THEY*, employ is the same from world to world just the details differ. The next step is to reduce your numbers via war, nuclear or digital either will Reality Manual: Hymphry R. Memebomber's warning to the Earthlings be devastating for your world. Looking at your planet, it looks like it is going to be the 'West', that term is now used to include places like South Korea and Australia even though these are technically in the East, further east than the Middle East, versus the Islamic Extremists. You should be able to see how the Neo-cons in Washington keep pushing for more war in the Middle East and how the IEs keep retaliating and how this situation perpetuates itself, which is exactly what, *THEY*, want.\*

Islamic State have got out of control'. I ain't making that up, that was Reality Manual: Hymphry R. Memebomber's warning to the Earthlings in the letter the Chairman of the Bilderberg group

sent to the other members of the group. The Guardian newspaper confirmed it was genuine. Of course it could be a

fake, it seems too perfect. Except Reality Manual: Hymphry R. Memebomber's warning to the Earthlings the book: Reality Manual: Hymphry R. Memebomber's warning to the Earthlings The Reality Manual: Hymphry R. Memebomber's warning to the Earthlings Establishment by Owen Jones is factual.

The problem you have is that these thought-controlled 'human beings' are in the positions to influence the next generation Reality Manual: Hymphry R. Memebomber's warning to the Earthlings of minds, which is why your society is deteriorating. It has let big business take over, it has let big business use people like good little robots. In turn, *THEY*, use big business to control society, 'do this or else, you don't want to lose your Reality Manual: Hymphry R. Memebomber's warning to the Earthlings job do you? Well then do as you are told. At the tills offer everyone a bag no matter how small is their purchase etc.' Do you see? Just like the Nazis made people behave like unquestioning robots and you all remember what happened there, don't you?

Add to this privatisation, where the control, of the biggest corporations and state systems are sold via shares, this again is all about power. This is the start of the road to make corporations more powerful than governments, think trade agreements TTIP, once these agreements are signed, you will not be able to re-privatise those institutions. This is already making corporations more powerful than governments: *THEY*, are already Reality Manual: Hymphry R. Memebomber's warning to the Earthlings suing governments for passing laws, laws which are for the good of the country, because the laws where affecting profit. Check it out on-line if you don't believe me. The problem your world has is that the majority of people are simply not bothered, they just carry on as normal and refuse to believe the situation is that bad.

Big business is beholden to profit of course, so everything has to be cost-effective, this is another way to control society. When everything in society is organised for cost-effectiveness then the result is a cost-effective society. In a cost effective-society, *THOSE*, who are rich are the kings and Queens. If you don't believe that then a factual book called The Establishment by one of your writers, Owen Reality Manual: Hymphry R. Memebomber's warning to the Earthlings Jones. He was helped in researching the book by one of your newspapers, The Guardian. In my humble opinion, having travelled the Galaxy, this book, even though it is a factual Reality Manual: Hymphry R. Memebomber's warning to the Earthlings one, just says the same as a fiction book predicting Reality Manual: Hymphry R. Memebomber's warning to the

Earthlings the future: George Orwell's 1984.

The best example of the thought-control is the Twitter Reality Manual: Hymphry R. Memebomber's warning to the Earthlings mob, or to put it another way, the groups of people in '1984', who are worked into a frenzy by the two minutes of hate. There is a neuroscientist on your world who has succinctly summed up, in a book, how this has been achieved. It describes how society is used to shape and influence the individual mind and the individual mind shapes society. He is called Micheal. S. Gazzaniga and his book is 'Who's in Charge: Free Will and the Science of the Brain' explains it clearly. Although Mr. Gazzaniga seems to have missed an important point: If you used American brains in your research and your research concludes said effect of society on the mind, then surely, given the insanity of American society, surely your research is tainted? It's just a philosophical thought exercise, exercises which, *THEY*, are trying to suppress. Are there any philosophers questioning the nature of reality? Or would they be too ridiculed to try to ask? And therefore no-one even tries. This effect, again, was predicted by George Orwell in 1984.

Orwell, remember, was actually employed at a high level of the British government, his predictions and warnings are based on the activities he observed in the upper levels of the British Government. He points this out to you all during the first half of what you term the '20<sup>th</sup> century', which is technically your 130<sup>th</sup> century of civilisation and Reality Manual: Hymphry R. Memebomber's warning to the Earthlings the 140,000,000<sup>th</sup> million century in the life-span of your planet. Orwell got the names wrong, he said was it was the 'Party and Oceania versus the hordes of Asia'. The Party and Oceania, or the 'West' if you remember Reality Manual: Hymphry R. Memebomber's warning to the Earthlings were constantly at war with Asia, or the 'Middle-East'. The Party was constantly stirring the emotions of people into a frenzy against a common enemy, whether that enemy was actually bad or not. The Party was then justified in it's military bombing of other sovereign countries, whose leader has a higher approval rating than the leader of the country who was Reality Manual: Hymphry R. Memebomber's warning to the Earthlings instigating the attack!

Your world, if you all stop and think for a second, is the 'West' versus radical Muslims. Which is fast becoming, thanks to, *THEIR*, war of power in the Middle-East, 'West' versus Muslims. Orwell also pointed out that the way the Party does this is to turn the population into unthinking drones (the term now used on your world) who just go along with what everyone else thinks. They are all gathered around the 'tele' broadcast where they are worked into a frenzy of hate and everyone can't help but get swept along in the emotion. Reality Manual: Hymphry R. Memebomber's warning to the Earthlings Doesn't this sound like the mind-controlled Reality Manual: Hymphry R. Memebomber's warning to the Earthlings maniacs of Twitter and Facebook?

---

You are fast becoming that Reality Manual: Hymphry R. Memebomber's warning to the Earthlings world of unthinking drones, whose sole mission in life is to maintain the machine even if it destroys the health of your entire species. Take Britain and Syria in 2015 Cameron is trying very hard to extend bombing to Syria. I'm sorry what will that achieve? I would postulate exactly nothing. You see you insane maniacs is that you are trying to defeat, with bombs, an idea, which is supported by many people who reside in your own country. You are trying to kill, with Reality Manual: Hymphry R. Memebomber's warning to the Earthlings bombs, something akin Reality Manual: Hymphry R. Memebomber's warning to the Earthlings to fresh air. You are trying to tell people, with bombs, how to think, to live their lives. Can't you see how insane that is, yes I know you have to defeat ISIL, I would try fighting an ideology with a different idea, not with bombs. The only people who can defeat ISIL are Islamic leaders not, with bombs, some pontificating ponce from the 'West'. YOU INSANE MANIACS.

Let me put it this way if you were able to murder every last man, woman and child in Syria, Reality Manual: Hymphry R. Memebomber's warning to the Earthlings if you were to level Syria into a waste land unfit for human habitation, YOU WOULD STILL NOT DEFEAT ISLAM EXTREMEISM. YOU INSANE MANIACS. The ideology would still be safe in Somalia, Nigeria, Libya, East Africa, the Mosques of the streets of your own country. Are you also going to bomb all of these places? *AND* don't forget no matter how many bombs you drop in Syria you Reality Manual: Hymphry R. Memebomber's warning to the Earthlings won't convince people to change, especially as they have been brainwashed into thinking they are doing god's work, they believe that their mission is divinely approved. So that is why every new evil 'Western' bomb that is dropped creates more Jihadis. Jihadis, thousands of which, thanks to, *THEIR*, Reality Manual: Hymphry R. Memebomber's warning to the Earthlings doings in Iraq, are already in Europe. Even if you 'win' in Syria and Iraq, ISIL could disperse into the background and wait until you leave, just like Afghanistan. YOU INSANE MANIACS.

So, I ask: If you obliterate Syria, Somalia, Iran, Saudi Arabia, Yemen, Iraq, Afghanistan, Jordan, the entire Middle-East from the face of the Earth, would you stop the Jihadis already in Europe? No, of course not, what you would do is make more and more angry, more and more determined to defeat the 'West'. If you were able Reality Manual: Hymphry R. Memebomber's warning to the Earthlings to Reality Manual: Hymphry R. Memebomber's warning to the Earthlings think you would soon see the insanity of your ways, of course, due to the mind-control, you are incapable of independent thought. I only point it out because the American Southerners, the Republicans, believe the bible word-for-word,
