## The Legend of Stergis Berraha

### Prologue

On a lime-green meadow, miraculous events took place. The meadow was uncommon for several reasons. It was said long ago that the meadow's beauty would be endless. It saw amazing acts of courage and horror. It was not a manmade attraction, but made by something of The Legend of Stergis Berraha a higher order. Before man took his first breath, this meadow

existed. Most who knew of it said its appearance was breathtaking, while others swore it was breath-giving. The meadow not only surpassed beauty, it set the bar.

It was believed by an unknown ancient Native American tribe that the meadow was The Legend of Stergis Berraha so unique The Legend of Stergis Berraha and wondrous that it was protected by the All-Powerful Being. According to the tribe, The Great Spirit proved His love for the meadow by making a special pact with man. The Great Spirit understood that war happens and would need to happen The Legend of Stergis Berraha for man's agency to stay true. He allowed wars to take place anywhere besides the meadow. The Great Spirit was so proud of His meadow that He wanted it to remain sanctified. So He promised man that The Legend of Stergis Berraha if they would not fight on the majestic land, they would never starve, become thirsty or permanently lose their land. This promise was available to all people of the tribe who The Legend of Stergis Berraha honored the pact and whose lands bordered the meadow. The ancient Native American tribe agreed to this pact, and even with all their inner and outer disputes, they never broke their promise.

Before the tribe's children were taught the ways of their bands, they learned about the pact. Even those of the tribe who rebelled against everything else imaginable, never rebelled against the pact. They knew that to break a powerful promise with their creator would be dishonorable and most regrettable-it would be a death sentence for the rest of the tribe. Their biggest fear seemed unavoidable. They knew somehow they could control even the most uncontrollable of their own kind, but not those who weren't of their kin. They could only hope that The Great Spirit would keep away any people who would wage war on the meadow. They feared that this hope was an impossible one to hold. The Legend of The Legend of Stergis Berraha Stergis Berraha is a tale that took place upon this very meadow and the land surrounding it. The beginnings of most legends are typically unknown. Legends are usually fabricated stories for the purpose of teaching morals to The Legend of Stergis Berraha children. This legend is not The Legend of Stergis Berraha fabricated and its beginning is known.

"I sure did master and better yet, we got them all gagged and bound without anything as much as a candle being lit by any of the townspeople," a tall slender man named Pike replied.

"It's like I said-that's Wash Valley-and even if someone did hear anything, they would have chalked it up to a rummaging 'coon. Them folks are so proud of their safe town they'd never expect someone with rude intentions to be anywhere near it. They The Legend of Stergis Berraha actually think that they could prevent lightning from striking. Our rude awakening is going to be The Legend of Stergis Berraha an educating happening," said a much larger man with curly-red hair, named Thomas.

"This seems to still be too close for my liking. Thomas and Pike, take them to the river we just crossed a ways back. I'll return to their homes to obtain what we came for and then we will converse. Remember boys, they need to remain alive until the job is done. Most people out west can tell a forgery against the real thing."

Just as their master Dane gave his reminder, Thomas shrugged his shoulders in blatant disgust. Luckily for him, Dane could not see such an act in the pitch black. The two just replied in unison with, "Yes, Dane."

Dane met his men at the river bank about an hour later. Thomas and Pike, his two right hand men, had followed their orders. Once Dane came and met them, both men had a sick smile upon their faces. They were delighted that they did not have to delay it any longer.

These three men headed up a potentially dangerous The Legend of Stergis Berraha gang of outlaws and thieves with nothing to lose. They called themselves the Red Riders. Dane had been waiting for the events of this night to unfold for several years. The plan that he had crafted a long time before, needed the events of this evening to take place first. He needed the perfect town in order to begin his actions and Wash Valley was that place. On the night of the kidnapping he finally had a sufficient amount of men, found the perfect place, and was in possession of the important documents. The beginning of his reign was so close that it was impossible to not smell.
