The rebellion of the earth (Portuguese Edition)

The government of tyranny extends throughout the cosmos.

The forces of light lost the battle for control of the land, and the evil rooted in the depths of cells.

The future where there is no freedom, light beings bring the change project, and insert in the human heart a tiny hope, love.

There is no good in this act, only one strategy used in an attempt to change the future from the point of view of the past, it is today.

The earth and the internal man are territories occupied by tyranny.

Every human DNA is war!

THE LAND OF REBELLION

Living never bothered me, but the dead rather a lot.

The sword has a will, touching the inner being, not kill or hurt, only transformed.

My enemies are always on the prowl of my weaknesses, seeking in every way, disrupt me.
